Finding an Information Technology partner is never easy specially when you are spoilt for choices and yet there is no assurance you will walk out with a product built that truly matches your expectations.

HEALTHCARE OR FINANCE?

Challenges are even greater...

- Is the Offshore Development center HIPAA Compliant?
- Are they well versed with the challenges that come with dealing with PHI?
- Are their team members certified?
- Do they have a Financial Subject Matter Expert available on board?
- Do they have past experience building such a system?
